OBJECTIVE

With 7 years of experience as a SQL Server Database Administrator, I am currently working with **In time Tec** as Sr. Software Engineer. I'm seeking a challenging opportunity that allows me to enhance my skills in **cloud technologies and database administration**. While contributing to organizational growth. I aim to leverage my technical expertise in **SQL Server, performance tuning, high availability, and security management** to deliver reliable solutions, and grow professionally along with the organization.

PROJECT EXPERIENCE

Company 2: In Time Tec

Senior Software Engineer DBA – Simplot, Bangalore.

- I'm leading a team of 3 from Offshore and globally we are a team of 9.
- Working in Migrations, Upgrades, Security Patches and Service Packs in SQL server.
- Hands on Always on availability.
- Cloud migration and cost optimization.
- Automating task with PowerShell and DBATools.

Company 1: TATA Consultancy Service

SQL DBA - Shell, Bangalore.

- I was part of build project where I have worked in SQL migration activity.
- Working in BAU and involved in Migrations, Upgrades, Security Patches and Service Packs in SQL server.

System Engineer - Diageo, Kolkata.

- I have got exposure to work and involve in Microsoft Azure platform.
- Worked on build project and involved SQL migration activity.

TECHNICAL SKILLS

- Having 7+ years of experience as a SQL Server Database Administrator (SQL DBA) supporting Microsoft SQL Server versions 2008, 2012, 2016, and 2022 in Production, Development, and Test environments.
- Strong expertise in installation, configuration, administration, and maintenance of SQL Server databases.
- Hands-on experience in troubleshooting and resolving issues including performance bottlenecks, SQL jobs, connectivity, login failures, mirroring, and space-related problems.
- Skilled in backup and restore strategies, database recovery, and disaster recovery planning.
- Experience with High Availability & Disaster Recovery (HA/DR) solutions such as Clustering, Database Mirroring, Log Shipping, and Always On Availability Groups (AG) including database restore and failover management.
- Proficient in SQL query writing, optimization, and performance tuning (indexing, fragmentation analysis, system health monitoring).
- Worked extensively on SQL Server security management including access provisioning, auditing, Transparent Data Encryption (TDE), and compliance.
- Experience in Change Data Capture (CDC) creation and management for data tracking and replication scenarios.
- Hands-on with SQL Agent Jobs, Database Mail, Linked Servers, Credentials, Proxies, SSIS, and SSRS.
- Experienced in patching, applying cumulative updates, security updates, service packs, and handling SQL Server upgrades and decommissioning activities.
- Exposure to Azure SQL PaaS services and worked on cloud migration projects.
- I am skilled in automation and scripting using PowerShell and other DBA tools.
- I am proficient in working with monitoring and ITSM tools such as SolarWinds, Cherwell, Helix, Control-M, and CMK.
- Collaborated with Microsoft Support for advanced issue troubleshooting.
- Strong communication skills with active participation in client calls, meetings, and cross-functional collaboration.
- Performed end-to-end SQL Server migration to Azure SQL Database using Azure Migrate and DMS with minimal downtime.
- Executed on-prem to Azure cloud migration including assessment, planning, execution, and post-migration optimization.
- Configured Azure SQL Managed Instance, implemented failover groups, and optimized workloads post-migration.
- Conducted database readiness assessment using DMA, identified compatibility issues, and remediated migration blockers.
- Automated migration tasks using PowerShell and Azure CLI for repeatable and error-free deployments.
- I have organized SQL training in my organization and worked on POC of new projects.

KEY SKILLS

- Databases: MS SQL 2022,2017,2016,2012,2008.
- Operating system: Windows server 2022,2016, 2012 R2, 2012, 2008.

- Software and Tools: SSMS, SQL server Configuration manager, Service Now, Cherwell, Helix, Solar-winds, Control-m, CMK.
- Cloud Service: Microsoft Azure: Az-900 certified.
- Languages: C, Python basics. Power shell and DBATools.

CERTIFICATION & TRAINING

- Microsoft Certified: Microsoft Azure Fundamentals AZ-900.
- ITIL 2011 foundation certification.

AWARDS & RECOGNITION

- “Service Commitment Award” from TCS in recognition of dedicated service.
- Recognition on handling complete migration activity.
- Recognition on performance improvement.

PERSONAL SKILLS

- Ability to work independently and as part of a global team.
- Effective communication with stakeholders and end-users.
- Adaptive to learn new technologies.
- Able to work in team efficiently.
- Strong documentation and process adherence skills.

EDUCATIONAL QUALIFICATION

- **PESC of Engineering, Mandy (June 2018)**
BE (ECE) with CGPA- 8.11
- **Citizens PU College, Nanjangud (March 2014)**
PCMB with Percentage - 76%.
